

Information sheet for travellers from abroad

Dear travellers, welcome to Berlin! Together with you, our important task is to prevent SARS-CoV-2 from continuing to spread unnoticed.

This information sheet is for three different groups:

- ▶ Travellers from risk areas
- ▶ Travellers from other areas
- ▶ Travellers showing symptoms indicating they might be infected with SARS-CoV-2

Travellers from risk areas with an elevated number of SARS-CoV-2 infections:

If you have been in a risk area during the 14-day period before entering Berlin, you are legally obligated to be tested for SARS-CoV-2 within 72 hours after your arrival.

You can find an up-to-date list of risk areas on the website of the Robert Koch Institute (RKI): https://www.rki.de/DE/Content/InfAZ/N/Neuartiges_Coronavirus/Risikogebiete_neu.html

Test obligation

- ▶ If you come from a risk area, you are legally obligated to get tested for SARS-CoV-2 within 72 hours.
- ▶ The test is free of charge.

Test sites

- ▶ Tegel Airport, Schönefeld Airport
- ▶ Central Bus Station ZOB
- ▶ In a medical practice in Berlin, please refer to the website of the Kassenärztliche Vereinigung Berlin <https://www.kvberlin.de/> or call +49 30-116117

After the test

- ▶ You have to quarantine yourself until you receive the test result!
- ▶ The local health office or the Corona App will inform you about the test result.

Test result is positive

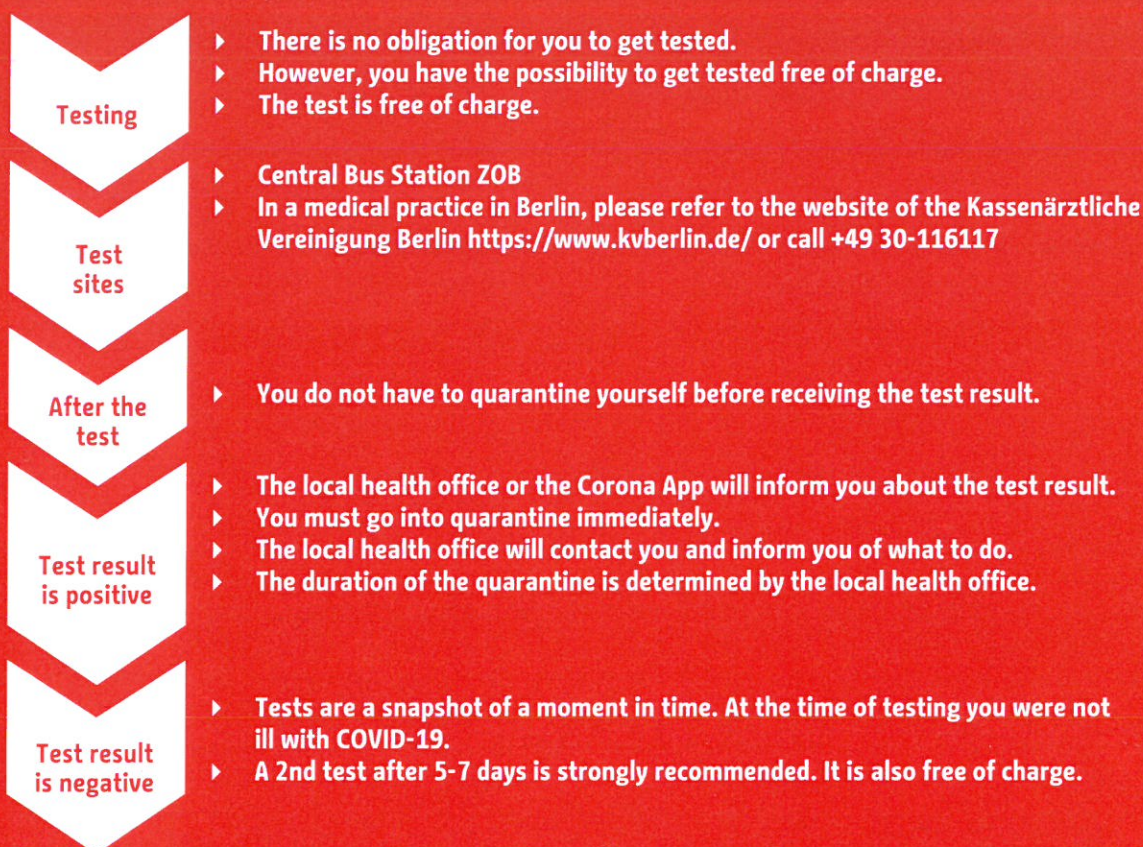

- ▶ The quarantine remains in place.
- ▶ The local health office will contact you and inform you of what to do.
- ▶ The duration of the quarantine is determined by the local health office.

Test result is negative

- ▶ Tests are a snapshot of a moment in time. At the time of testing you were not ill with COVID-19.
- ▶ A 2nd test after 5-7 days is strongly recommended. It is also free of charge.
- ▶ There are no restrictions for you after notification of the final test result.

Travellers from countries that are not classified as risk areas:

You are coming from any area where the incidence of SARS-CoV-2 is less than 50 newly infected persons per 100,000 inhabitants within the past week?

Travellers showing symptoms indicating they might be infected with SARS-CoV-2:

Possible signs of illness:

You have the following symptoms: cough, fever, stuffy nose, impaired sense of smell or taste, sore throat, and/or difficulty breathing?
